CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

This CAPER is for Year 2 of the City of Lewiston's 2020-2024 Five-Year Consolidated Plan.

For the 2020-2024 Consolidated Plan, the City created a new set of goals and priorities to address the needs in our community. The City identified the following goals and objectives to address in its Consolidated Plan. Included below are goals, benchmarks, and progress this year:

1. Provide essential public services. The City expected to serve 1240 persons this year and served 1020 or 82.26% of the annual goal.
2. Safe and affordable housing. The City expected to rehabilitate 50 rental units and rehabilitated 11 units or 22% of the annual goal. They City expected to rehabilitate 5 homeowner units and rehabilitated 4 units or 80% of the goal. The Code Enforcement Officer position was expected to inspect, evaluate, and bring 50 units into code compliance. the CEO inspected 336 properties in the CDBG target area. Of those, 0 units received CDBG funding to correct code violations. 257 properties were cited for violations; and 19 were completed and cleared by the owner, representing 38% of the City's goal. Only one residential building was expected to be demolished, but the City demolished 8 buildings or 800% of its goal.
3. Created economic opportunities. The City was able to assist one business located at 50 Lisbon Street by providing operational costs and three jobs were created at three businesses located at 12 Ash Street, 43 Lisbon Street, and 240 Lisbon Street, representing 16.67% and 25% of the City's goals, respectively.
4. Public facilities and infrastructure. Completed projects during 2021 included the YWCA's replacement of its gym floor and expanded classroom space as well as the Howe Street sidewalk improvements which improves pedestrian safety in the CDBG Target target area. A couple Choice Neighborhood match projects were contracted with work having commenced, but will not be completed until 2022. Those projects include a fence to be erected around the new soccer field at McGraw Field Park and a water fountain and wheelchair charging station to be installed in Kennedy Park. Not all of those efforts are included in the official count of the City meeting just 50% of its annual goal by providing services or providing new or improved access to a facility to 5764 people.

All projects and activities funded during FFY2021 were to help address a need in one of the City's four goals.

In ongoing reponse to COVID-19, the City will be accepting applications for eligible public facility/infrastructure projects which are expected to be completed in the upcoming program year.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete
Create Economic Opportunities	Non-Housing Community Development	CDBG: \$ / Revolving Loan Fund: \$	Facade treatment/business building rehabilitation	Business	5	0	0.00%			
Create Economic Opportunities	Non-Housing Community Development	CDBG: \$ / Revolving Loan Fund: \$	Brownfield acres remediated	Acre	5	0	0.00%	4	0	0.00%
Create Economic Opportunities	Non-Housing Community Development	CDBG: \$ / Revolving Loan Fund: \$	Jobs created/retained	Jobs	60	6	10.00%	12	3	25.00%

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

In this second year of the new five-year Con Plan, our public services programs came close to meeting the annual goal by reaching 82.26%.

The City received a \$5.2 million Lead Hazard Control Grant in 2019 which provides a source of funding to continue to address this critical issue of making housing lead safe, code compliant and healthier. Under this grant, on a per unit basis, \$1,400 of owner match will be required and \$1,150 of CDBG funds will be granted toward lead hazard control work of up to \$18,000. When needed to fully address code enforcement identified deficiencies beyond the scope of the lead work CDBG funds will be loaned to assist owners make their buildings code compliant. This work will be coordinated between the Lead Program Manager, Code Enforcement Officer and Rehabilitation Coordinator, of which the latter two positions are funded with CDBG. It was the City's hope that the lead grant combined with additional staff would improve the City's progress, however, the lead grant has not reached its expected benchmarks due to a several progress limiting factors. Reporting for each year remaining in the 2020-2024 Consolidated Plan will fall short of the expected outcomes for rehabilitated units.

Additional public services directed at preventing and reducing homelessness will be utilized by the recently released HOME-ARP funding and those accomplishments will be reported by the City of Auburn as part of the Auburn-Lewiston HOME Consortium.

Economic Development continues to be significantly impacted by the pandemic as many businesses were assisted with COVID-related funding in addition to business owners being hesitant to borrow funds with so many unknowns in the future.

On Public Facilities, the City was off pace in this program year and only met 49.69% of its annual goal. The engineering of the Howe Street sidewalk improvements was completed, however, the activity on its own does not produce beneficiaries. Construction of the sidewalks will occur in the 2021 construction season as will construction of the Linear Park sledding hill and the long delayed soccer field at 280 Bartlett Street in the Choice Neighborhood area. The City is working with local partners to better identify needs in the CDBG target area.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

	CDBG
White	1,166
Black or African American	544
Asian	23
American Indian or American Native	6
Native Hawaiian or Other Pacific Islander	0
Total	1,739
Hispanic	26
Not Hispanic	0

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

During FFY2021, approximately 67.05% of the residents of the City of Lewiston served were white and approximately 32.60% of the residents served were of non-white races (predominantly Black/African American). According to U.S. Census population estimates, the City of Lewiston is 86.79% white, 5.89% Black/African American, 1.11% Asian, 0.19% Native American, 5.80% two or more races, and 0.21% are of other race. There have not been highly disproportionate services provided to white residents over residents belonging to racial minorities although the demographics of residents served should be closely monitored in future years to ensure that a disproportionality does not develop.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	1,282,913	1,033,451
Other	public - federal	666,325	108,583

Table 3 - Resources Made Available

Narrative

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
Census Tract 201			
Census Tract 202	20	0	
Census Tract 203			
Census Tract 204			
Choice Neighborhood	75	95	CDBG
Lewiston, City	5	5	CDBG

Table 4 – Identify the geographic distribution and location of investments

Narrative

Most of the funding was spent in the Choice Neighborhood, which includes three of the four CDBG target areas, with only 5% spent outside of the target areas on qualified owner occupied rehabilitation projects.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

Lewiston's CDBG rehab program requires a 10% match for investor owned and non-profit housing entities. These loans are often combined with other grant funds such as Lewiston's Lead Grant and Healthy Homes. No public land was used during this program year, however, City staff is currently working to develop a list of properties that may be developed in the future to address the need for housing units.

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	0	0
Number of Non-Homeless households to be provided affordable housing units	0	0
Number of Special-Needs households to be provided affordable housing units	0	0
Total	0	0

Table 5 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	0	0
Number of households supported through The Production of New Units	0	0
Number of households supported through Rehab of Existing Units	0	0
Number of households supported through Acquisition of Existing Units	0	0
Total	0	0

Table 6 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The City only met 44% of its annual rental rehabilitation goal by rehabilitating 11 rental units and met 80% of its annual homeowner rehabilitation goal by rehabilitating 4 homeowner units outside of the target area to address code violations. Twelve of the rehabilitated units were part of the lead grant work.

The rehabilitation coordinator position was created and filled late in 2020. This year was a program building year to put the City in a strong position to effectively administer its rehab program. The lead program has gone through a transitional phase while the new program manager covered that role as well as the role of the vacant intake coordinator position.

Discuss how these outcomes will impact future annual action plans.

Future action plans under the new consolidated plan starting in 2025 will project more realistic goals for rehabilitation of units.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	3	0
Low-income	4	0
Moderate-income	7	0
Total	14	0

Table 7 – Number of Households Served

Narrative Information

The City continues to collaborate with agency and public housing partners to identify and explore accessibility and affordability housing projects. The Economic & Community Development Department continues to be actively engaged in issues and discussions related to increasing and improving affordable housing in the City.

Additionally, the City annually provides CDBG funds to nonprofit agencies that deliver services to extremely low-, low-, and moderate – income persons in the target area.

The Community Development Coordinator position was reclassified to Community Development Program and Project Manager. This change will allow the CDPPM to keep programs and projects moving through the process on a daily basis and afford other CD staff with hands on support. Future action plans will include looking into gaps and developing policies to ensure the City is addressing worst case needs as well as the needs of disabled residents.

Another matter for review is how the City can foster and maintain affordable housing. The Housing Rehabilitation program has had a slow start with the creation of a Rehab Coordinator position that wasn't filled until the program year was well underway. Now that the pandemic is seemingly easing its impact on the City we are hopeful construction prices will begin to drop, from the resulting increase, allowing property owners to embark on much needed rehab work.

The City's goals around housing always include seeking new affordable housing developments to meet the urgent need.

This year the City's housing rehabilitation program served a total of 15 households with an income break down of the following: 3 extremely low-income; 4 low-income; 7 moderate-income; and 1 non low-moderate-income.

An emergency rehab loan program addresses the worse case needs. The housing rehab program allows low- to moderate income households to apply for funding to create ADA compliant access to homes.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

There are over 7,800 people living in poverty in Lewiston. Many are on the brink of crisis. A survey of low income Maine people in 2015 found that at one point in the prior year 46% couldn't pay their utility bill; 39% couldn't pay the full monthly rent; 36% experienced having a car break down with no money to fix it; and 25% were forced to move because they couldn't afford their housing. Given this reality, preventing homelessness requires more than additional shelter beds. It requires help for people to identify needs, alleviate barriers, and connect with jobs, as is described in the recommendations with regard to poverty above. Most importantly, it requires helping homeless individuals and families to find new permanent housing. Without a stable address, it is impossible for people to get to work regularly, to stay healthy, or to plan for the future. The City of Lewiston is an active member of a collaboration of 20+ homeless service providers known as the Lewiston Auburn Alliance for Services to the Homeless (LAASH). LAASH meets monthly to communicate needs and services being provided and coordinate services to the greatest extent possible to address the needs of homeless and near homeless persons in Lewiston-Auburn. LAASH sets annual priorities and goals to address identified gaps in service delivery. LAASH facilitates the Point in Time Survey for the Lewiston-Auburn area. The link to Maine's Continuum of Care (CoC) is:

<https://www.mainehousing.org/partners/partner-type/homeless-service-providers/homeless-initiatives>

Addressing the emergency shelter and transitional housing needs of homeless persons

On June 5, 2019, LAASH and the State of Maine CoC hosted a Conversation about Homelessness at Lewiston City hall to address the recent increase in homeless individuals in Lewiston. 37 persons attended, including staff from our congressional delegation, providers, homeless persons, citizens, housing authority representatives, and City representatives to discuss issues, resources, barriers and recommendations. There were three recommendations: 1) People need to be safe and secure in housing that is affordable to them; 2) Once housed, provide supportive or case management services to help the person housed stay in their home; and 3) Establish a communication hub where good up to date information can be given to homeless people. Information could be distributed through Trinity Jubilee Center, The Club House, or the Lewiston Public Library. Last year, the historic renovation of Sophia's House, a former convent, into a combined transitional shelter and affordable housing option was completed and put into service. Sophia's House provides 2 year shared living arrangements for 6 women who have recently left and are healing from prison, trafficking or exploitation, prostitution, drug

addiction, in a supportive atmosphere. The six woman live in SRO's on the 3rd floor. They share the house, meals and common spaces with 5 women on the second floor who are in permanent apartments, living on fixed incomes, who serve as mentors. Sophia's House provides supportive services, and purposeful work in a cottage industry based at out of the house. CDBG funds were used to assist with redevelopment of the building and with programs. Tedford Housing provides 2 year permanent and affordable housing and supportive housing services to 10 homeless families through a referral process. A case manager is on site to assist with a wide variety of services which facilitate access to health services, housing navigation services, and education opportunities and job training.

The City's Mayor established an Ad Hoc Shelter Committee for the purpose of advising and making recommendations to the City Council on the submitted of homelessness, shelters, and the range of housing options necessary to reduce homelessness in Lewiston. The committee is expected to make recommendations to municipal officials and key staff on policy, practice, and procedural changes necessary to address homelessness within Lewiston and to develop state, federal, community, and municipal support for shelters and the range of housing options necessary to meet the needs of people and families experiencing homelessness in Lewiston.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The State of Maine previously launched an initiative with their Shelter Plus Care vouchers for long-term stayers. If a person is homeless 180 out of the previous 365 days, they will go to the top of the list to receive a voucher. The State of Maine will utilize the Homeless Management Information System (HMIS) system to identify at-risk people. A large challenge for Lewiston's chronically homeless is the lack of shelters that allow individuals to remain in the shelter more than 60 days. Two new faith-based shelters have recently been added; however, they do not count the Homeless that seek shelter in these facilities in the HMIS data system. LAASH improves access to services and housing for persons who are homeless or at risk, shares information and strengthens cooperation among local agencies and homeless providers, identifies gaps in services, increases public awareness about homeless issues, and seeks funding to service the homeless and at-risk. The Lewiston Auburn 10 Year Plan to End Homelessness identified difficulty locating assistance and navigating services (including for health, mental health, employment, and housing) as a problem for homeless persons, particularly for families and domestic violence survivors. Homeless service providers describe the challenge of keeping people housed and the need for case management to help with jobs, budgets and basic needs. For persons without a mental health or disability diagnosis, supportive services can be difficult to access unless there is a crisis. This year, the City funded 4 programs through its CDBG public services, who provided support services to 692 households who are homeless or near homeless. Tedford House, described in the section above,

addresses many of these issues.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The State of Maine previously launched an initiative with their Shelter Plus Care vouchers for long-term stayers. If a person is homeless 180 out of the previous 365 days, they will go to the top of the list to receive a voucher. The State of Maine will utilize the Homeless Management Information System (HMIS) system to identify at-risk people. A large challenge for Lewiston's chronically homeless is the lack of shelters that allow individuals to remain in the shelter more than 60 days. Two new faith-based shelters have recently been added; however, they do not count the Homeless that seek shelter in these facilities in the HMIS data system. LAASH improves access to services and housing for persons who are homeless or at risk, shares information and strengthens cooperation among local agencies and homeless providers, identifies gaps in services, increases public awareness about homeless issues, and seeks funding to service the homeless and at-risk. The Lewiston Auburn 10 Year Plan to End Homelessness identified difficulty locating assistance and navigating services (including for health, mental health, employment, and housing) as a problem for homeless persons, particularly for families and domestic violence survivors. Homeless service providers describe the challenge of keeping people housed and the need for case management to help with jobs, budgets and basic needs. For persons without a mental health or disability diagnosis, supportive services can be difficult to access unless there is a crisis. This year, the City funded 4 programs through its CDBG public services, who provided support services to 446 households who are homeless or near homeless.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The City and Lewiston Housing Authority (LHA) work collaboratively to further fair housing initiatives and have a MOU to provide financial assistance for security deposits under the HME program. Additionally, LHA is a collaborating partner on the L-A Lead Program and Choice Neighborhood. They make referrals to owners of properties that have Section 8 tenant vouchers to enroll their property in the LEAD program. LHA works independently and does not require City assistance to further its goals. LHA has its own initiatives to address the needs of public housing residents, such as collaborating with Lewiston Schools and Lewiston Adult Education to bring educational services to its residents in an effort to open doors of opportunities to which they may not have otherwise had access.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

Lewiston Housing Authority convenes a Resident Advisory Board to provide input for its Annual Plan. LHA encourages and provides financial support for residents to organize resident council and encourages homeownership through its Family Self-Sufficiency and Voucher Homeownership programs. The City provides rehabilitation funding through CDBG and HOME programs to support homeowners in homeownership.

Actions taken to provide assistance to troubled PHAs

Lewiston Housing Authority is a top performer under the rating system.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The Planning Board and City Council thoughtfully consider rezoning proposals and are actively taking steps to amend zoning to allow higher density development in the CDBG Target Area and NRSA when warranted. Blake Street Towers and several adjacent blocks were rezoned resulting in the density requirement being reduced from a minimum of 1,250 s.f. of lot area per dwelling unit to no minimum lot size requirements. The rezoning also resulted in 22 buildings and 33 parcels becoming conforming that were non-conforming. This will make those parcels more attractive for new investment or redevelopment.

In August 2020, the City approved Design Standards, targeted to the Tree Street Neighborhood to promote quality development that create incentives and flexibility that supports infill development, increase landscaping and street scape requirements, and streamline the development review process.

In late 2019, the City created a Rental Registry Ordinance to improve properties in the downtown. Just as the program was launching COVID 19 descended on the landscape. With revenues to landlords significantly impacted the City Council waived the penalties for not enrolling in the registry, resulting in low participation. In FFY 2021, that effort was reinvigorated.

The City has a long history of partnering with the private sector to develop LIHTC projects, providing tax increment financing, and when warranted, HOME funds. The City Council authorized the City to be a co-applicant on a Choice Neighborhood Implementation Grant, with the Lewiston Housing Authority (LHA) being the lead applicant. This is the culmination of several years of effort to work with citizens to develop a plan, "Growing our Tree Streets," that reflect the vision and desires of residents. Avesta Housing Development was chosen as the housing development partner to work in concert with LHA. The City is a co-applicant on the grant, and lead on the Neighborhood portion of the plan. Community Concepts is lead on the People part of the plan. The plan may be viewed at <https://www.growingourtrestreets.com/>

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

With staff changes in the CD department the City's rehabilitation program began to ramp up, with Code enforcement and CD Rehab staff providing technical assistance and funding to help property owners improve their properties and become code compliant. In 2019, the City was awarded a \$5.2 million lead hazard control grant which is more fully described in the following section.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The lead program provides up to \$18,000 per dwelling unit to make properties lead safe. That program is matched with a CDBG funded grant of \$1,150 per unit toward the lead hazard control work, with additional CDBG funded loans for qualified applicants. Owners are required to prove a \$1,400 per unit match.

During FFY 2021, the City continued implementing its 4th LEAD grant and, as of June 30, 2021, the City has performed lead hazard control interventions in 3 units; performed lead risk assessments/lead paint inspections to identify hazards in 41 units; performed healthy homes interventions in 3 units; educated 4 households about the dangers of lead paint; and completed 15 individual training certifications regarding lead safe practices and abatement. CDBG funded lead hazard interventions in 12 units within the target area.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The City is focusing its efforts on an anti-poverty strategy that reduces intergenerational poverty. In FFY 2021, the City funded 6 public agencies, benefitting 1020 households by providing: subsidized childcare to enable families to work; classes and training skills to improve housing stability; soft skills employment training; and classroom tutoring and academic activities for youth that boost proficiency in the academic skills such as basic math, reading, and writing. Skills attained through these services are designed to break the cycle of intergenerational poverty.

While the City does not have a specific policy for reducing the number of poverty-level households its Social Services Department provides services directly to families living in poverty. Seeing a large increase in need due to COVID-19, the ECD Department provided CDBG-CV funds to cover the salary of an additional Social Services case worker whose position provides housing information, education and referral services to the City's lowest income and most vulnerable residents.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

During FFY 2019, the City added two additional staff member to the Economic and Community Development Department (ECDD): 1 full time Rehabilitation Coordinator and 1 full time Intake Coordinator. Other members of the Department include a full time Director; 1 full time Economic Development Manager; 1 full time Economic Development Specialist; 1 full time Grants Accountant; 1 full time Community Development Coordinator; 1 full time Lead Program Manager; 1 part time Administrative Assistant; and 1 full time Code Enforcement Officer. The staff skill sets complement each other which allows for a thoughtful and thorough response to Lewiston's economic and community development needs. The ECDD is housed within the City so staff is able to seek support from other City departments who are always willing to help. City staff is strongly encouraged to attend training to improve knowledge. Staff has not been able to utilize in-person trainings and conferences. The COVID-19 pandemic significantly impacted the ramp up of the City's rehab and lead programs and neither program saw tremendous results during FFY 2021.

Adding a Rehabilitation Coordinator and Intake Coordinator to the Department negated the need to contract several key functions out to a third party allowing staff to obtain program knowledge to be kept inhouse.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

The City has been able to maintain strong collaborative partnerships that bring additional resources to further community goals. The City works well with Lewiston Housing Authority, Community Concepts, Inc., Coastal Enterprises, Inc., and several LIHTC developers and private landlords to address Lewiston’s housing needs. The GHHI partnership includes both hospitals, the City of Auburn, Healthy Androscoggin, and private nonprofits to meet the needs of the residents in the CDBG target area. The City is involved in LAASH and works closely with homeless providers. The City has built a network of providers that work collaboratively to accomplish goals. The City has nurtured relationships with several affordable/mixed income housing developers as well as with the Maine State Housing Authority. In the scoring structure, Maine’s LIHTC Qualified Allocation Plan Lewiston is one of the preferred communities for housing.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

The 2020 -2024 Analysis of Fair Housing Impediments identified the following issues: 1) zoning codes that restrict development, 2) lack of smaller housing options for singles and seniors, 3) barriers to safe housing for renters with prior records of substance abused, sex offender, prison time, chronic homelessness or mental health concerns, 4) unhealthy/unsafe housing stock, 5) lack of Sharia compliant financing, 6) shortage of ADA accessible units, 7) shortage of units suitable for large families, 8) few owner occupancy options in multi-family neighborhoods.

The Choice Neighborhood planning initiative identified many of these issues and recommended that home ownership opportunities be created as part of the infill development strategy. All of the replacement housing recommended in the plan included the creation of ADA compliant units in elevator service buildings when multi-family. The plan calls for the Tree Streets area to be “lead free by ‘43”, and that new housing be energy efficient and built to Passive House standards.

The availability of Sharia compliant financing remains elusive, but the City and local lending partners continue to develop a product that meets federal banking regulations but that also does not charge interest. The City as well as CEI have been able to provide interest free loans with service charges on commercial properties, but have not yet been able to do so for residential mortgage financing. However, the effort continues.

Raise Op Cooperative Housing has renovated a total of 15 units in 3 buildings that employ the

cooperative model, where members of the cooperative have ownership and management control of their buildings, bringing home ownership to low and moderate income people, albeit in a non-traditional way. Raise-OP has secured land and begun the design and financing process to develop 9 units of cooperative housing by new construction. The City has partnered in that effort, selling land at below the city's cost of ownership.

Sophia's House was established in 2019 and provides no cost housing and support services to women coming out of prison, addiction, prostitution, or trafficking. The CDBG program helped fund the renovations and continues to support programming as the agency is recommended for ongoing funding.

As noted elsewhere in this CAPER zoning in Lewiston is a work in progress and evolving. Over the last year several areas of the downtown were rezoned to allow increased density and make non-conforming uses conforming. This has already resulted in a 35 unit mixed income LIHTC project being developed at the corner of Blake and Pine by Avesta Housing. Under the Choice Plan, and with LHA and Avesta Housing as partners, more is on the way.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The Director, Community Development Coordinator and the Grants Accountant monitor the activities funded under the Consolidated Plan and the Annual Action Plan as follows:

- Contractual Agreements are executed between the City and Subrecipients that includes the applicable HUD regulations and addresses requirements of reporting, performance measures, documentation to support the request to be funded, agreement that the City can access and monitor files and the requirement to meet all applicable federal, state, and local regulations.
- Training sessions are held with all subrecipients on the requirements of the program, frequency of reporting, outcome measures, etc.
- A desk audit is performed by the Grants Accountant at each draw and the Administrative Assistant ensures that the reporting is completed quarterly and that the reporting is complete with number of participants served and that race & ethnicity data is provided.
- The Administrative Assistant insures annual compliance with affordability, insurance, and continued residency or other requirements as required with city loan and grant recipients.
- In April all files are reviewed to ensure compliance and that the reporting reflects the goals and objectives they identified during the application process.
- Run periodic performance reports in IDIS to monitor funded activities to the AAP
- City staff will conduct on site visits as needed, but no less than annually, for grantees receiving public services grants and City staff perform a desk audit when the sub-recipient submits its quarterly report and drawdown request to ensure compliance with CDBG rules and that the sub-recipient is meeting its stated goals.

For CDBG activities conducted with other City Departments, a Memorandum of Understanding is completed with information about the expected roles and responsibilities of the department written out.

City staff follow a City adopted procurement policy that identifies the cross cutting regulations, minority business outreach, etc. CDBG staff are notified when services are being procured for a project to ensure that the appropriate language is included in the bid package. The City maintains a log of names and addresses of contact persons in our Ethnic-based Community Organizations and state registered Women, Disabled -and Minority Business Enterprises to make sure that they are included in the notifications from the City.

Program policies are reviewed on a consistent basis to ensure they are compliant with current CDBG rules.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

Each year the City places a notice that the CAPER is available and ready for review and provides a 15 day comment period; the notice is published to the City's various social media accounts; the DRAFT CAPER is placed on the City's website; and a copy is provided to each member of the Citizen's Advisory Committee. Public comments will be included in the FINAL CAPER. No public comment was received relating to the 2021 CAPER.

In an effort to provide equal access the City is looking into gaps and developing policies within the public participation plan to ensure we are reaching identified audiences, including, but not limited to, non-English speaking and disabled residents.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

The City's programs and funding priorities will reflect the priorities referenced in the Choice "Growing our Tree Streets" plan. The impacts of COVID have also shaped the City's programs, with grant programs added to our loan programs. The eligible uses of those programs broadened from simply brick and mortar improvements, to include technical assistance, working capital, and childcare/transportation support for entrepreneurs.

CARES Act (CDBG-CV) funds were awarded in FFY2019. The City is working to identify activities that prepare for, respond to, and prevent COVID-19.

Unexpended FFY 2020 CDBG and CDBG-CV funds will be reallocated in FFY 2021 for existing FFY 2021 activities and/or newly identified community needs.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

The City's programs and funding priorities will reflect the priorities referenced in the Choice "Growing our Tree Streets" plan. CR-58 – Section 3

Identify the number of individuals assisted and the types of assistance provided

Total Labor Hours	CDBG	HOME	ESG	HOPWA	HTF
Total Number of Activities	1	0	0	0	0
Total Labor Hours	0				
Total Section 3 Worker Hours	0				
Total Targeted Section 3 Worker Hours	0				

Table 8 – Total Labor Hours

Qualitative Efforts - Number of Activities by Program	CDBG	HOME	ESG	HOPWA	HTF
Outreach efforts to generate job applicants who are Public Housing Targeted Workers					
Outreach efforts to generate job applicants who are Other Funding Targeted Workers.					
Direct, on-the job training (including apprenticeships).					
Indirect training such as arranging for, contracting for, or paying tuition for, off-site training.					
Technical assistance to help Section 3 workers compete for jobs (e.g., resume assistance, coaching).					
Outreach efforts to identify and secure bids from Section 3 business concerns.					
Technical assistance to help Section 3 business concerns understand and bid on contracts.					
Division of contracts into smaller jobs to facilitate participation by Section 3 business concerns.					
Provided or connected residents with assistance in seeking employment including: drafting resumes, preparing for interviews, finding job opportunities, connecting residents to job placement services.					
Held one or more job fairs.					
Provided or connected residents with supportive services that can provide direct services or referrals.					
Provided or connected residents with supportive services that provide one or more of the following: work readiness health screenings, interview clothing, uniforms, test fees, transportation.					
Assisted residents with finding child care.					
Assisted residents to apply for, or attend community college or a four year educational institution.					
Assisted residents to apply for, or attend vocational/technical training.					
Assisted residents to obtain financial literacy training and/or coaching.					
Bonding assistance, guaranties, or other efforts to support viable bids from Section 3 business concerns.					
Provided or connected residents with training on computer use or online technologies.					
Promoting the use of a business registry designed to create opportunities for disadvantaged and small businesses.					
Outreach, engagement, or referrals with the state one-stop system, as designed in Section 121(e)(2) of the Workforce Innovation and Opportunity Act.					

Other.
